What our customers say

"We want to thank you and your crew that installed the unit and hot water heater. Everything was done very professionally."

- **Phil Trissel**

"We would like to express our appreciation for the great service we received when our furnace and air conditioner was installed. We would recommend Crawford Co. anytime."

- **Brenda and Milton DeShane**

"I wanted to let you know of the wonderful experience we had with your service department."

- **Matt Schwind**

"We could not be more satisfied with our excellent new system. Crawford's installer was very professional."

- **Andrew Guzzo**

"We received the brackets. Thanks for the good work and quick turnaround."

- **Scott Garriott**, Mallard Manufacturing

Residential Heating & Cooling, Plumbing

Quality

Crawford Company's foundation has been built on serving Quad-City area residential customers. We have nearly 60 years experience in this market, which means we have a strong knowledge base that provides our customers with better quality work. Our customers spend less time and money because the job is done right the first time.

Crawford offers premier lines of HVAC products from Bryant and Lennox. Bryant and Lennox manufacture our industry's most energy efficient furnaces, air conditioners and indoor air quality systems. For the ultimate in energy savings and Green building advantages many of our customers condition their homes with ClimateMaster Geo-Thermal (ground source) heat pumps.

Our plumbing crew (IL Lic. # 058 1456 81) puts your mind at ease and uses modern equipment and quality parts to ensure our work meets the highest industry standards. Crawford offers a full range of replacement and new services from water heaters to fixtures to backflow installation and testing to gas/water/sewer lines and more!

Service

Crawford Company offers fast and efficient 24-hour service. By fixing the problem as soon as it happens, our customers don't have to wait for days to have issues addressed.

Don't think just because we work around the clock our customers will not receive quality work. Crawford has only the best installers and technicians. They will provide effective and efficient work on all makes and models of HVAC and Plumbing equipment.

Innovation

Our customers see high efficiency options from across our product lines. Crawford customers save money with direct results from our innovative products. These innovative products, combined with top-tier service, and a company that prides itself on quality make Crawford a great choice for you and your family.

Quality, Service, Innovation

Crawford Company, founded by Harvey Crawford in 1952, has grown from a small shop to a thriving corporation that looks to carry its momentum into the years ahead.

Crawford specializes in heating, ventilation, air conditioning, plumbing, laser cutting, specialty welded fabrication, and custom architectural products. Crawford

products and services are found within commercial, industrial, and residential markets. Crawford Company is guided today, as it has been for nearly 60 years, by Crawford's original values: a commitment to product quality, customer service, innovation, business integrity, and a high regard for individual contributions. We strive to uphold these values in every aspect of our company as we continue to serve the Quad Cities and surrounding area.

Commercial Heating & Cooling, Plumbing

Quality

From the mid 1970's to present day, Crawford Company has expanded its HVAC operations to include commercial and industrial endeavors. A considerable amount of Crawford's volume is associated with larger projects. With a significant volume of work, we have been able to refine and perfect our process. Customers save money with fewer repairs. Crawford also offers a full-range of plumbing services in the commercial market.

Service

Crawford has an experienced team of estimators and project managers who join forces with shop and field employees to see jobs to completion. Each project receives a total team effort, ensuring all necessary steps are taken. As a result, we consistently complete work accurately, on time, and within budget.

Crawford's 24-hour service is available in the commercial market. With over 150-years of combined field experience, our team is ready and able when our clients need us most!

Innovation

It is no secret that technologies have transformed rapidly during the last several decades, and this is certainly true in the commercial heating and cooling market as well. We have continued to be successful at keeping up with the technology changes and adapting our methods to ensure we are using the best technology available. Therefore, our clients receive the highest quality products and workmanship as a result of this innovative technology.

Industrial – Laser Cutting, Welding, Custom Fabrication

Quality

Crawford's industrial divisions include: laser cutting, welding, custom fabrication, and architectural products. These divisions offer a wide range of products and services. The options are nearly endless when it comes to customer needs. With an array of versatile machines and services, Crawford is ready to meet and exceed client needs.

Service

Each of our industrial divisions offer experienced technicians, welders, and designers; this combined with short lead times and competitive pricing make Crawford a solid option. Crawford's team works with customers from concept to completion. High levels of interaction ensure our projects are delivered on time and within budget.

Innovation

Crawford strives to be innovative with a full range of state-of-the-art equipment. This equipment, combined with a creative and well experienced team of fabricators and project managers, make Crawford an excellent choice!
